Compared to last week's market; feeder steers and heifers weight price averages ended fully firm with last weeks figures. Slaughter cows also remained steady with the slaughter bulls finishing \$3 stronger. Today's front-end classes of feeder calves showed to be higher but the percentage of plainer calves kept the averages steady on the whole.

Feeder's optimism has regained a foothold as parts of the mid-west grazing areas have received rains along with parts of the western corn belt. It appears the fall futures are also supporting a strong market.
