### Weekly Summary

Compared to last week's market, all weight class price averages ended fully \$7 to \$10 higher. Slaughter cows and bull's prices continue to remain firm.

With the northern wheat calves moving off grass and into the feedlots, it appears the numbers are having no bearing on the bullishness of our feeder calf demand. Even with beef being the highest source of protein, it still reigns as king of the meats. Prices seem to keep gaining strength as all fundamentals of the beef complex appear solid.
