Weekly Summary

Compared to last week's market, all class price averages of both feeder steers and heifers ended fully \$3 to \$8 higher. Both slaughter cows and bulls also showed uneven but were within \$2 of last week's figures.

The board continues to post healthy gains and with last Friday's USDA Cattle on Feed's bullish report, the market bulls are once again taking the front row seats with aggressiveness and stronger feeder prices. Both the domestic and foreign beef demand remains strong also.
