Weekly Summary

Compared to last week's market, all weight class averages of both feeder steers and heifers ended fully steady to \$2 higher on some of the lighter classes. Slaughter cows and slaughter bulls also ended firm with last week's figures on a good offering.

As the weekly slaughter rates continue to drop due less inventory offered, the packers are losing their grip on controlling the markets with the pendulum swinging more to the producer's advantage. They continue to look for any negative news to attempt to stall out this optimism.
