Weekly Summary

Compared to last week's market, all classes of feeder steers and heifers' averages ended fully \$4 to \$6 lower with some lower quality classes up to \$10 lower. Slaughter cows trended \$3 lower while the slaughter bulls showed firm.

Some analysts feel the highs have been put in for the year but the wheat country received abundant rains the past several days which could ignite the demand more for turn out feeder calves. Buyer aggression was strong with good activity especially on the front-end feeders.
