

- **Low Commission Rate- You keep more of your profits**
  - We're flat rate, our average commission for the year is averaging \$29.50 /hd. Other local markets are 3.5-4.0%, or close to \$60 /hd.
  - This makes a major difference on these high cattle prices, typically twice as high
  - \$1500 calf cost \$29.50 at here versus \$60 anywhere else
- **Highest Prices because of the large buyer pool**
  - Weekly we place your cattle in front of 20-25 calf buyers. Just for comparison, most local auctions have 4-6 calf buyers.
  - These buyers represent over 75 cattle companies bidding on your cattle
  - Having served these buyers for over 40 years with quality offerings, we're able to attract buyers from several states, several representing corporate feedlot accounts which are rare to come by.
  - We pride ourselves on having premium buyers who pay premium prices. Anywhere from regional to national buyers will be bidding on your cattle.
- **Cost Effective Selling, Premium Results**
  - Enjoy low-cost commissions without compromising on the premium prices your livestock deserves.
- **Trusted Auction with Proven High-Price Outcomes**
  - Consistently delivering top-dollar sales, backed by a reputation for fairness and transparency.
- **Service and Transparency**
  - Being family owned and operated for over 40 years, we take pride in being transparent about pricing and offering the service producers deserve when selling their calf crops.

**Lastly, we have the option for convenient receiving/drop off stations East Texas Livestock has located in the area:**
