Weekly Summary

Compared to last week's market, the average prices of all classes of feeder steers and heifers ended mostly firm to \$5 lower on the plainer calves. Both the slaughter cows and slaughter bulls also ended steady with last week's figures.

The futures board closed well into the negatives today as a liquidation trend forced some sharp losses. Operators continue to face a tightening profitability squeeze as surging feeder cost and higher replacement cost continue to create an undertone to the market. Still, we are witnessing buyer aggression on all weight classes.
