Some lower quality and hard-to-place cattle fall below these figures.

Compared to last week's market, the average prices of all weight classes of feeder steers and heifers ended \$10 to \$15 higher with some of the lighter classes up to \$20 higher. Both the slaughter cows and slaughter bulls again trended mostly firm with last week's figures.

The livestock futures rallied strong today closing the board from \$8 to \$10 higher. This spark appears to have been the Trump Administration's red-dyed diesel relaxation allowing tax free diesel to be used on highways. This will reduce the high cost of diesel and lower transportation cost. Cheaper fuel is supportive for producers, truckers and sale barn economics.

The annual Queens of the South Sale is this Saturday 10/10/26

800+ head of quality pairs, breds, and open heifers along with hand selected bulls.

Starts at 12 noon. Bidding also available on DVAuction
